

THE HISTORY OF AUSTRALIAN FILM SOCIETIES

by John Turner

*Published (2018) by: The Australian Council of Film Societies,
Park Orchards, Victoria*

This remarkable book tells the story of the Australian Film Society movement

- and is packed with people, photos, classic film posters, and film events!
- It's an essential reading and reference source for anyone interested in film societies, film-making, film education, and Australia's culture life.
- It reveals why film societies are necessary, have survived every challenge, and how film night sociability - even in Australia's remotest parts - can be as important for members as their film.
- It chronicles the movement's early days, including its weekend film festivals and technical and artistic film-making co-ops for students - and inaugurating the Melbourne and Sydney Film Festivals.
- Also its struggles over censorship laws, lobbying against film import duties, and the push for 'R' and 'X' certificate films.

The History of Australian Film Societies

A **554 page** tribute to the 70-year history of film societies in Australia and the stories of the people, the projects, and the organisations involved.
